

Pritchett Controls Opens New Facility

Pritchett Controls president, Tim Pritchett (center) cuts the ribbon to officially open the company's 21,000 square foot building in Beltsville. Looking on are Pritchett board chairman Jerry Pritchett (left), Molly Pritchett, Barbara Frush, Maryland State Delegate District 21 and Diana Jackson, Maryland Office of Business Development. Not pictured is Elaine McCubbin, Maryland Office of Business Development.

Pritchett Controls, a leader in HVAC, lighting and security control systems, officially opened its new 21,000 square foot facility in Beltsville, MD, September 22.

In spite of the current economic challenges, Pritchett has been able to grow. It eventually outgrew its old facility. The new building includes a state-of-the-art training center, a large customer presentation area, a panel fabrication area, a 3,600 square foot warehouse with an intelligent lighting system. There is also adequate office space to allow the company to continue its aggressive growth plans.

Pritchett Controls installs and services a vast array of temperature control, ventilation, lighting and security building automation solutions to a education, healthcare, government commercial and industrial clients throughout the mid-Atlantic region.
