

August 9, 2010

I'm pleased to announce that Pritchett Controls has moved to a new location in Salisbury. In the past three years, our Eastern Shore team has more than doubled in size. In addition to the continued success of our Controls group, our recently launched Mechanical Services group is growing at a truly dramatic rate.

As a result of this success, we've completely outgrown our space on Northwood Drive and have purchased a larger building to accommodate our current and future staffing needs. The acquisition of this building should be viewed by our customers as a strong indicator of our commitment to operating as a local business on Maryland's Eastern Shore. Our phone and fax numbers remain the same.

Our new address is:

718 East Main Street  
Salisbury, MD 21804  
P: 410-219-7750  
F: 410-219-7751

Look forward to a future announcement regarding a grand opening celebration. Thank you to all of our customers for making this possible.

Sincerely,

Peter J. Ewart  
Vice President, Business Development
