

### **Ribbon Cutting Ceremony in Manassas**

On June 24, 2011, Pritchett Controls celebrated the opening of its new facility in Manassas, VA with a ribbon-cutting ceremony attended by customers, the Manassas Chamber of Commerce, and a number of local dignitaries including the Mayor.

Pritchett Controls first opened an office in the Manassas area in 2008, but rapid growth of our business in Northern Virginia led us to look for a new home in 2010, culminating in the purchase of our new facility in downtown Manassas.

Tim Pritchett, President of Pritchett Controls, said "We're truly excited about our new Manassas home and what this represents. We've been able to assemble a great team of professionals here in Northern Virginia and have been able to grow dramatically as a result. I want to thank our customers in particular for providing us with the opportunity to serve them and allowing us the opportunity to celebrate this day."

The new facility is located at 9204 Church Street, Manassas, VA 20110. Our phone and fax numbers remain the same.
